During the year 367 officers were appointed (including 192 reserve men), 17 discharged (including 3 reserve men), 5 resigned (including 2 reserve men), 9 retired on pension and 11 died. (See Tables II., III. and V.)

The term of office of Mr. Albert T. Whiting expired on the sixth day of May, when Mr. Charles P. Curtis, Jr., who succeeded him, qualified and took his seat as a member of the Board of Police.

Capt. Michael Merrick died Sept. 3, 1895. He was appointed on the force June 20, 1870. On July 8, 1874, he resigned to accept a position in the Dorchester district court. He was reappointed on the police force May 1, 1879; promoted sergeant April 13, 1882; promoted lieutenant Feb. 13, 1885; promoted captain Aug. 23, 1890.

Inspector Thomas F. Gerraughty died March 23, 1895. He was appointed on the force March 30, 1868; promoted inspector Oct. 21, 1878.

Lieut. William S. Kendall died June 2, 1895. He was appointed on the force Oct. 10, 1864; promoted sergeant March 8, 1869; promoted lieutenant May 29, 1879.

Lieut. George E. Savory was promoted to be captain May 20, 1895.

The following sergeants were promoted to be lieutenants: Henry J. Walkins, James O'Neill, George E. Savory and William O. Libby.

The following patrolmen were promoted to be inspectors: George F. Pinkerton, Manly A. Whitman and Walter A. Abbott.

The following patrolmen were promoted to be sergeants: Matthew J. Dailey, Rufus G. Fessenden, Edwin Piper, Walter E. Bruce and Horatio J. Homer.

The average number of men absent from duty on account of sickness was 20 per day, or 2.05 per cent. of the force. (See Table IV.)

During the year sixty-one complaints against officers were investigated by the Board. The nature of complaints and disposition of cases is shown by Table VI.

There were twenty-nine suits pending against members of the department at the close of 1894. In October, 1895, I. F. Paul, Esq., resigned his position as counsel to the Board of Police, and F. R. Bangs, Esq., was appointed. Eighteen new suits were brought and twelve disposed of up to October, and one new suit brought and six disposed of since October, leaving thirty now pending.

During the past year the city government has granted to the Board of Police authority to appoint three hundred and twenty-one additional patrolmen, and under that power one hundred and eighty-three have been appointed. This number includes fifty-two men taken into this department from the park, market and water departments, under the act of the Legislature of 1895. It is believed that this increase will add greatly to the protection of life and property in the city, with its daily increasing population.

The congested condition of the streets in the business portion of the city has been such that it was found necessary to organize a special detail of officers to serve in raising blockades, clearing the streets and facilitating travel. Such a squad was organized during the year, and is known as the "special street squad," composed of one captain (Thomas C. Evans), one lieutenant, one sergeant and thirty patrol-

men. The service performed by this squad has been highly appreciated by those using the streets for the transportation of vehicles of all kinds. Blockades, where the members of this squad are patrolling the streets, are very rare, showing that such service was very much needed in facilitating travel.

The formation of a department known as the "liquor squad," under the direction of Capt. Thomas H. Brown, and located at police headquarters, has been very efficient in its service, and especially effective in ferreting out gambling houses, breaking up kitchen bar rooms and enforcing the liquor law generally. Heretofore that work has been performed by the various divisions of the department, but this system, under the efficient management of the officer in charge of the squad, has proved to be a very successful method of dealing with these questions. The squad numbers seventeen, all told, one captain, one sergeant and fifteen men, who have been selected with special reference to the efficient performance of this duty.

During the past year nine members of the department have been commended by the Board for meritorious service, and fifteen have been commended by magistrates, public officers, societies or citizens.

The department medal of honor has been awarded to the following-named officers for the performance of extraordinary or dangerous services, viz. : —

Deputy Superintendent William H. Pierce, for raiding, prosecuting and breaking up lottery enterprises, policy shops and pool rooms in this city.

Patrolman Wesley W. Chandler, of Division 3, for brave and meritorious conduct shown while attempting to make an arrest on Causeway Street on the night of Jan. 30, 1895, when he was set upon by a party of intoxicated persons, and severely wounded by a pistol shot from one of the number.

Patrolmen George A. Rohrer, Jr., and William J. Murphy, of Division 4, for courage shown and valuable services rendered in rescuing inmates of a house and saving property, at the risk of their own lives, at a fire on Lagrange Street on the evening of Jan. 26, 1895.

Reserve officer John J. Smith, of Division 16, for heroic courage shown in rescuing a woman from drowning in Charles

River on the night of Nov. 22, 1895, by plunging into the water and endangering his own life.

These medals were formally presented by one of the commissioners at the station houses to which the officers were attached, at roll call, in the presence of the men of the division. As this medal can only be conferred upon members of the police department for extraordinary and heroic service, the Board recommends that an act be passed by the Legislature prohibiting any person from unlawfully using or wearing this medal of honor unless it is properly conferred by a vote of the Board of Police.

Horses.

On the 1st of December, 1894, there were 52 horses in the service. During the year 19 were sold and exchanged, 1 died and 29 were purchased. At the present time there are 61 in service, as shown by Table VII.

WORK OF THE DEPARTMENT.

Arrests.

The total number of persons arrested was 42,534, against 42,035 the preceding year, being an increase of 499. The percentage of increase or decrease was as follows: —

	Per Cent.
Offences against the person,	Decrease, $4\frac{8.1}{100}$
Offences against property, committed with violence,	Decrease, $9\frac{5.5}{100}$
Offences against property, committed without violence,	Decrease, $4\frac{5.5}{100}$
Forgery and offences against the currency,	Decrease, $12\frac{6.7}{100}$
Offences against the license laws,	Increase, $8\frac{1.6}{100}$
Offences against chastity, morality, etc.,	Increase, $25\frac{7.4}{100}$
Offences not included in the foregoing,	Increase, $1\frac{7.8}{100}$

Five thousand and ninety-three persons were arrested on warrants, and 36,183 without warrants; 1,258 persons were summoned by the court, 39,735 persons were held for trial, and 2,799 were released from custody. The number of males arrested was 37,347; of females, 5,187; of foreigners, 20,394, or, approximately, 47.94 per cent.; of minors, 4,795.

Of the total number arrested, 14,884, or 34.99 per cent., were non-residents. (See Tables VIII., IX. and X.)

The nativity of prisoners was as follows:—

United States,	22,140	Asia,	3
British Provinces,	3,418	Austria,	39
Ireland,	10,914	Belgium,	25
England,	1,450	Denmark,	32
France,	108	Finland,	33
Germany,	445	Holland,	20
Italy,	777	Hungary,	6
Poland,	89	Mexico,	1
Portugal,	39	South America,	12
Sweden,	495	Turkey,	15
Scotland,	616	Wales,	23
Spain,	21	East Indies,	4
Norway,	181	West Indies,	40
Switzerland,	8	Australia,	2
China,	646	Arabia,	7
Greece,	368		
Russia,	553	Total.	42,534
Africa,	4		

The number of arrests increased from 37,492 in 1890 to 41,132 in 1891 and to 48,463 in 1892. Then it decreased to 46,109 in 1893 and to 42,035 in 1894, this increase and decrease being accounted for principally in the arrests for drunkenness. The average number of arrests for the five years from 1890 to 1894, inclusive, was 43,046; the number of arrests the present year was 42,534, or 512 below the average. (See Table XI.)

Of the total number of arrests for the year (42,534), 1,366 were for violations of the city ordinances; that is to say, 1 arrest in 31 was for such offence, or 3.21 per cent.

Sixty-three per cent. of persons taken into custody were between the ages of twenty and forty. (See Table XII.)

The number of persons punished by fines was 12,815, and the fines amounted to \$128,132.68.

One hundred forty-six persons were committed to the State Prison, 875 to the House of Correction, 103 to the Women's Prison, 235 to the Reformatory Prison, 70 to the House of Reformation, 4,467 to the House of Industry, 5 to the Marcella Street Home, and 431 to other institutions.

The total years of imprisonment was $3,625\frac{1}{2}$, the total number of days' attendance in court by officers was 34,407, and the witness fees amounted to \$11,432.12. (See Table XXI.)

The value of property taken from prisoners and lodgers was \$57,426.41.

Two hundred and ninety-one witnesses were detained at station houses, and 657 persons were accommodated with lodgings, a decrease of 95.76 per cent. from last year. This decrease is accounted for by the fact that the Wayfarers' Lodge, instead of closing at 10 o'clock, as in previous years, was kept open until 12 o'clock, and all applicants for lodgings at the station houses up to that time were sent to the Wayfarers' Lodge. There was an increase of about 15.1 per cent. over last year in the number of insane persons taken in charge, an increase of about 3.1 per cent. in the number of sick and injured persons assisted, and an increase of about 7.8 per cent. in the number of lost children cared for.

The average amount of property reported stolen in the city for the five years, from 1890 to 1894, inclusive, was \$93,273.43; in 1895 it was \$113,588.04, or \$20,314.61 more than the average. In the same period the average amount of property reported stolen in and out of the city which was recovered by the Boston police was \$145,725.82; in 1895 it was \$158,808.51, or \$13,082.69 more than the average.

The average amount of fines imposed by courts for the five years, from 1890 to 1894, inclusive, was \$120,123.24; in 1895 it was \$129,092.68, or \$8,969.44 more than the average. The average number of days' attendance in court was 29,113; in 1895 it was 34,407, or 5,294 more than the average. The average amount of witness fees earned was \$15,010.18; in 1895 it was \$11,432.12, or \$3,578.06 less than the average. (See Table XI.)

The law passed by the Legislature last year relative to gaming has been of very great assistance to the department in the suppression of pool rooms and gaming houses, also in procuring convictions, as will be seen by the following comparison:—

Last year the department raided 152 pool rooms; this year, 1. Last year there were 477 raids made on policy shops; this year, 288. Last year there were 177 raids on other places where gambling was carried on; this year, 151. Last year there were 1,281 persons arrested, and property to the amount of \$7,727.75 seized; this year there were 1,090 persons arrested, and property to the value of \$3,-216.55 seized.

This comparison shows conclusively that there have been less gambling places to be raided, as the law has been rigidly enforced. The amount of property seized under this act is much larger than it could have been under the previous law for the same number of raids, on account of the authority which the police now have to take all articles of furniture in the premises raided. While the law has not entirely exterminated gambling, it has reduced the practice to a minimum, and in nearly every case where gamblers or gambling implements were found the persons so arrested have been easily convicted and fined. The fact that the present law gives to the police authority to arrest all persons present in pool rooms, lottery establishments, etc., as well as in places where other forms of gambling are carried on, has increased the number of persons who have been arrested and convicted over previous years.

Bureau of Criminal Investigation.

The statistics of the work of this branch of the service are included in the statements of the general work of the department; but, as the duties are of a special character, the following statement will be of interest:—

Number of persons arrested, principally for felonies,	1,455
Fugitives from justice from other States, arrested and delivered to officers from those States,	45
Number of cases investigated,	4,033
Number of days spent in court by officers,	2,952

Amount of stolen property recovered,	\$154,107 03
Amount of fines imposed by court,	\$5,994 50
Number of years' imprisonment imposed by court,	712 $\frac{1}{2}$
Number of photographs added to the "Rogues' Gallery,"	700

The "Rogues' Gallery" now contains 3,761 photographs. The records of 613 criminals have been added to the "Criminal Record" kept in this department, which now contains the records of 19,759 criminals. The Bureau has issued the prison reports of 360 discharged convicts, containing the full records, descriptions, distinguishing marks, etc., of 121 convicts who were discharged during the year, and whose records were considered of sufficient importance to preserve.

Other police departments were furnished with 166 copies of these reports.

During the past summer the city appropriated \$50,000 for the purpose of building a patrol boat. The "Protector," the present boat, has been in service for twenty-one years. Skilful use and constant care has left her machinery in excellent condition, but she is no longer adapted to the present requirements. A powerful towing capacity is requisite in order to perform the harbor master's work of moving large vessels promptly from the harbor channels to a proper anchorage. The "Protector" has not sufficient power to control the large modern vessels which we welcome in constantly increasing numbers to our port; assistance has to be hired at a cost of time and money and at a loss of our reputation as one of the large ports of the United States. Sea-going qualities, such as the "Protector" lacks, may be demanded at critical times. Great strength and consequent bulk and weight, together with speed, are among the requirements of a modern police patrol boat. We are confident that our architect, Mr. Arthur Binney, has been successful in his difficult task of combining these qualities with that economy which looks to future service as well as to first cost.

Licenses.

The total number of licenses issued of all kinds, except for the sale of intoxicating liquor, was 21,588; transferred, 176; cancelled and revoked, 1,700. The officers investigated 302 complaints arising under these licenses, and 10 hearings were given by the Board on these complaints. The fees collected and paid into the city treasury amounted to \$34,007.55. (See Table XIII.)

Ambulance Service.

One ambulance has been built for the department during the year. The eight police ambulances now in service are stationed in divisions 1, 4, 7, 10, 11, 13, 14 and 15. Ambulance No. 1 made 392 runs, and conveyed 342 persons to the hospitals, 12 home and 38 to other places. Ambulance No. 2 made 440 runs, and conveyed 415 persons to the hospitals, 17 home and 8 to other places. Ambulance No. 3 made 91 runs, and conveyed 68 persons to the hospitals, 16 home and 7 to other places. Ambulance No. 4 made 68 runs, and conveyed 56 persons to the hospitals, 7 home and 5 to other places. Ambulance No. 5 made 102 runs, and conveyed 93 persons to the hospitals, 2 home and 7 to other places. Ambulance No. 6 made 39 runs, and conveyed 32 persons to the hospitals and 7 home. Ambulance No. 7 made 105 runs, and conveyed 91 persons to the hospitals, 5 home and 9 to other places. Ambulance No. 8 made 73 runs, and conveyed 59 persons to the hospitals, 1 home and 13 to other places. (See Table XV.)

The number of sick and injured persons receiving assistance at the several police stations continues to increase, 3,048 having been assisted during the past year, and a total of 22,269 having been assisted in the past nine years.

Sale of Intoxicating Liquor.

The total number of places licensed for the sale of intoxicating liquor on the first day of May, 1895 (not including druggists and clubs), was 396, being one to every 500 of the population, based on the census of 1890, and 88 additional licenses have been granted on account of the increase

in the population of the city as shown by the last census of the Commonwealth. Of these, 694 are licensed to sell to be drunk on the premises, or one to every 716 of the estimated population for the present year.

During the year the licenses of 17 places were surrendered and cancelled, but new licenses were issued in their places.

The following gives the number of licensed places Nov. 30, 1895:—

First inholder "A,"	58
First inholder "B,"	10
First victualler,	669
Second victualler,	22
Fourth distiller,	4
Fourth wholesale dealer "B,"	91
Fourth grocer,	94
Fourth wholesale druggist,	10
Fifth brewer,	23
Fifth bottler,	3
	984

There were 230 druggist and 47 special club licenses issued. Of these, 6 druggist licenses were cancelled.

Number of complaints for violation of conditions of licenses made to Board of Police,	20
Number of hearings given,	19
Number of druggist licenses forfeited (licenses of 1894),	6
Number of special club licenses forfeited (licenses of 1894),	1
Number of complaints for violation of conditions of licenses made in court,	5
Arrests for selling without a license,	630
Seizures made,	1,533
Amount of liquors seized (gallons),	8,351
Number of applications for licenses rejected,	525

The following shows the nature of the complaints upon which licenses were forfeited by the Board of Police from Dec. 1, 1894, to Nov. 30, 1895:—

Gaming on licensed premises,	1
Selling liquor without certificate,	4
Neglecting to record in a book the sale of intoxicating liquor,	1
Selling intoxicating liquor to a person not a member of the club,	1

Amount paid into the city treasury for license fees \$1,-192,989.

Arrests for drunkenness averaged 71 per day during the year, or 5 per cent. of the population.* There were 1,131 more persons arrested than in 1894, an increase of 4.5 per cent.; 44.20 per cent. of the arrested persons were non-residents and 51.58 per cent. were of foreign birth. Six hundred and eighty-three persons were arrested for violation of the liquor law, 35 more than in 1894, and of these 63.8 per cent. were of foreign birth.

The Board respectfully renews its recommendation that the Legislature enact a law establishing the office of "Assayer of liquors for the city of Boston," to be appointed by the governor, with such assistants or inspectors as may be necessary. The duty of the assayer should be to visit licensed places himself or by his agents, wherever intoxicating liquors are sold for consumption or medical purposes; and he should be authorized to take samples of liquor sold, and to analyze them to ascertain if they are fully up to the standard, the standard quality to be defined by an act of the Legislature. The law provides that liquor sold by licensed dealers shall be of "*standard quality*," but, *as there is no standard fixed by the Legislature, that provision is inoperative*. It is a deplorable fact that some of the liquors sold in our saloons to-day are of the poorest quality manufactured.

The Board also renews its recommendation that the acts relating to the selling or giving away of intoxicating liquors on holidays, be so amended as to include persons holding licenses of the fourth and fifth classes (wholesale druggists excepted). Experience proves that the custom of selling liquor in bottles by grocers and other wholesale dealers on holidays is very injurious to the public welfare. Persons who are in the habit of purchasing liquor in this way drink it in the public streets, which makes the public highway a bar room and causes more intemperance and trouble than selling liquor over a bar.

The Board recommends that all dealers in malt liquors and substitutes therefor be required to take out a license, regardless of the percentage of alcohol that the liquors may contain. There are large quantities of liquors brewed that are substitutes for malt liquors, containing less than one per

* Four hundred and ninety-seven thousand.

cent. of alcohol, that are put upon the market and furnished largely to kitchen bar rooms and other unlicensed places, and are largely retailed on the Lord's day and holidays.

FINANCIAL.

Requisitions were made on the city council for the sum of \$1,375.907, to meet the running expenses of the department, including the pensioned police officers, house of detention and station-house matrons, for the present financial year.

The total expenditures for police purposes during the past year, including the pensions, house of detention, station-house matrons and liquor-license expenses, but exclusive of the maintenance of the police-signal system, were \$1,402,029.91. From this should be deducted the amount received for uniform cloth, etc., and paid into the treasury, — \$14,965.61, leaving the net cost for maintaining the department, \$1,387,064.30.

The total revenue paid into the city treasury from fees for licenses over which the police have supervision was \$1,226,996.55. (See Table XVI.)

The cost of maintaining the police-signal system during the year was \$84,034.97. (See Table XVII.)

PENSIONS AND BENEFITS.

Dec. 1, 1894, there were 116 pensioners on the roll. During the year 10 died and 9 were added, viz., 1 lieutenant, 1 house watchman and 7 patrolmen, leaving 115 on the roll at date. A list of pensioners will be found in Table XVIII. The payments on account of pensions during the past year amounted to \$73,327.76, and it is estimated that \$74,380 will be required for the purpose in 1896.

The invested fund of the Police Charitable Fund on the 30th of November last amounted to \$207,550, and there was a balance of \$2,608.78 unexpended income. There are 62 beneficiaries at the present time, and there has been paid to them the sum of \$9,815 during the past year.

The invested fund of the Police Relief Association on the 30th of November was \$48,439.79. The payments for the year amounted to \$19,734.10.

The Board, having discontinued, for this year at least, the custom of allowing an annual ball to be given for the benefit of the Police Relief Association, thereby depriving the department of the opportunity heretofore offered of raising funds for the benefit of this association, would respectfully renew its recommendation of last year, that a law be enacted allowing police officers a fee of sixty cents for each case entered in the municipal courts, drunks included, said fee to be credited to the Police Relief Association; or a law giving to the Police Relief Association one-quarter of the entire amount of fines paid into the city treasury by the municipal court of the city of Boston, said amount being equal to the amount received from the annual ball given by the association. This would enable the department to continue the good work of relieving the widows and orphans of deceased members of the association.

POLICE-SIGNAL SYSTEM.

Mr. John Weigel was appointed director of signal service, to succeed Mr. Henry A. Chase, who died March 2, 1895. Mr. Weigel has been employed as an electrical mechanic in the signal service since Aug. 20, 1888.

There are now in use 13 wagons, 11 pungs and 26 horses in the patrol service, and 3 wagons and 4 horses in the repair department. Four spare patrol wagons are kept in reserve.

During the year the wagons made 27,888 runs, covering an aggregate distance of 20,495 miles. Twenty-eight thousand four hundred and fifty-seven prisoners were conveyed to the station-houses; 1,214 injured and insane persons were taken to station-houses, the hospitals or their homes; and 569 lost children were taken to station-houses. There were 476 runs to fires and 715 runs for liquor seizures. There are 420 signal boxes in use, arranged in 58 circuits. There were 182,379 telephone messages and 2,550,231 "on duty" calls sent over the lines. (See Table XIX.)

During the year stations 6, 9, 10 and 11 have been equipped with four-wire aerial cable, giving metallic circuit telephoning, made necessary by the introduction of the West End railway current. It will be necessary to further

equip all the stations outside of the underground districts in the same manner.

In compliance with the Public Statutes, chapter 454, of the Acts of 1894, for laying wires underground, stations 2 and 4 have been completed, and that part of station 5 north of Dover Street, giving metallic telephone service to stations 2 and 4. A great deal of delay was encountered in obtaining the necessary ducts for the underground construction. The ducts assigned by the New England Telephone and Telegraph Company for city wires being in a great many instances already occupied by the fire alarm department, a demand was made for further ducts, which, after a delay of more than two months, was refused, necessitating a compromise, so that it was necessary to lay a large amount of ducts in order to complete station 4. A great deal of time has been consumed in changing and arranging the overhead wires, by order of the commissioner of wires, so that this department was nearly a year behind in starting its underground work, but at the present time the '94 and '95 districts and a part of the '96 district has been completed.

BUILDINGS.

The department has increased its room for the use of headquarters during the past year by securing a lease of a portion of the adjoining building in Pemberton Square. This addition was absolutely necessary as the former quarters were entirely inadequate to its requirements.

The new station house in Division 14 has proved satisfactory in every way. It is desirable that an appropriation sufficient to erect a wagon house and stable, in connection with the station house, as contemplated in the original plan, should be made as soon as possible.

Many repairs have been made on several station houses during the past year, and it is hoped that during the coming year they will all be put in good order.

The present quarters of the line department on Barrett Street are inadequate for its use, and are made doubly so by the addition of the underground department and necessary

apparatus. The upper floors are already filled, and the floor space is small, entirely inadequate for the teams in use; one, the underground wagon, has to be left in an outside stable, and the apparatus in use both in the overhead and underground work has to be raised off the floor at night and lowered in the morning, hampering the work a great deal and consuming no little time.
